Response to Amendment

The examiner is in receipt of applicant's response to office action mailed 2/29/2008, which was received 7/28/2008. Acknowledgement is made to the amendment to claims 1-3,11,and the addition of claims 31-34. Applicant's amendment has been carefully considered, and was persuasive. However, a new rejection based on USC 101 follows:

Examiner's Note

Examiner has cited particular columns and line numbers or figures in the references as applied to the claims below for the convenience of the applicant. Although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the individual claim, other passages and figures may apply as well. It is respectfully requested from the applicant, in preparing the responses, to fully consider the references in entirety as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior art or disclosed by the examiner.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 1 is directed to non-statutory subject matter. Based on Supreme Court precedence see *Diamond v Diehr* 450 US 175,184 (1981); *Parker v. Flook*, 437 US 584,588,n. 9 (1978); *Gottschalk v Benson*, 409 US 63, 70 (1972); *Cochrane v Deener*, 94 US 780, 787-88 (1876) a 101 process must (1) be tied to another statutory class (such as an apparatus) or transform underlying subject matter (such as an article or materials) to a different state or thing. Since neither of these requirements is met by the claim the claim is rejected as being directed to non-statutory subject matter.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 101, set forth in this Office action. It is noted that allowance is contingent on overcoming the USC 101 rejection and a final updated search that will be conducted before passing the case to issue.

Response to Arguments

Applicant's arguments with respect to claims 1-3,11-13,31-34 have been considered and allowable subject matter for claim one is provided.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
